

Bath chairs/ Bathing Systems

Below are just some examples of bath chairs/bathing systems. Please use this a reference to search the websites listed to see other options available.

Standard Bath Chair www.drivemedical.com

- Use must have good static and dynamic sitting balance
- No armrests
- Must be able to perform sit to stand transfer independently or with assistance
- Would need to step over side of bathtub with this chair
- Weight capacity is 400 pounds
- Seat height 15.5" - 19.5"
- Seat dimensions (W) 19.25" x (D) 11.5"
- Other versions of this are available but more difficult to get insurance to cover (with armrests, padding, etc.)

Standard Transfer Tub Bench www.drivemedical.com

- Allows user to sit on bench on the outside of the tub and scoot over to the inside of the tub
- Grab bar can go on either side of the bench
- Caution skin integrity can be compromised when sliding across the bench
- Weight capacity is 400 pounds
- Seat height 17.5" - 22.5"
- Seat dimensions (W) 26" x (D) ~19"
- Other versions available, with padding or commode combo but more challenging to get covered by insurance

Otter Bath Chair www.inspiredbydrive.com/product/otter

- Comes in four different sizes
- Can be used inside of the tub and with a roll in shower
- Max user height 72 inches, Max user weight 250 pounds
- The seat width of all bath chairs is 14.5 inches and the extra-large is 17 inches. This is important if you have a child with a wider hips or wiggles around a lot
- Has adjustable legs to add 7 inches in height
- There is a base with wheels for a roll in shower.
- Multiple accessories available

Bath chairs/ Bathing Systems

Below are just some examples of bath chairs/bathing systems. Please use this a reference to search the websites listed to see other options available.

Rifton Wave bathing system

www.rifton.com

- Comes in 3 sizes: up to 75 pounds- 250 pounds
- Seat dept of the small is 10.5 inches and the large is 17 inches.
- The seat depth of the small and medium chairs is 15 inches and the large is 17.5 inches.
- 6 Seat back angle adjustments
- Calf rest adjusts independently of back
- Angle adjustable seat and backrest
- Adjustable legs- raise seat 7 inches off of the floor of the bathtub
- Accessories: Head block, Chest strap, Leg strap, Calf rest, Tub stand- additional 5.5"- 11.5", Shower stand with wheels
- There is a tub- transfer base option with this bath chair. This prevents the family from lifting the child up and over the side of the bathtub. However, this child is up out of the tub slightly higher which may make bathing a little messier. You need to know which direction the chair needs to transfer. If standing in front of the bathtub, is the shower head on the right (CCW) or left (CW)?

HTS Chair

www.rifton.com

- This can be used for toileting and bathing
- Comes in 3 sizes: overall height up to 46 inches- 74 inches
- Multiple base options: On the toilet with mounting bracket, Over the toilet- stationary, Off of the toilet on mobile base
- Tilt in space option for hygiene and peri care as well as pressure relief
- Accessories: Arm rests, Laterals, Headrest, Harness, Tray, Foot straps, Splash guard, Etc.

Bath chairs/ Bathing Systems

Below are just some examples of bath chairs/bathing systems. Please use this a reference to search the websites listed to see other options available.
